KRITALUKKUL THANAT

Hello! My name Thanat, 22 years old, from Thailand. I am of mixed Thai and Filipino descent. I am currently an undergraduate student at the University of Shanghai for Science and Technology, studying in the School of Optical-Electrical and Computer Engineering, majoring in Computer Science and Technology (fourth year).

I hope to intern in a Front-End Developer position to improve my skills in website and web application development, focusing on the use of HTML, CSS, and JavaScript, as well as frameworks like vue.js, and to collaborate with software development teams.
